

CIRCULAR

TYPE & NUMBER ELEXON Circular – EL02794

Date 10 April 2018
To BSC Parties and Party Agents
From BSC Operations
Purpose For information

Issue with SVAA Calendar 2018/19

What is happening?

The 2018/19 SVAA Calendar was distributed in the D0286 Data Aggregation and Settlements Timetable File with an incorrect date range, thereby meaning that all Run dates relating to Payment Date 2 May 2018 and beyond were not provided.

The D0286 file containing this incorrect date range was published as part of the MDD Version 266 and Version 267 in March and April 2018 respectively.

Without the correct date range, Data Aggregators will not be able to create and send files to the SVAA required for Volume Allocation Runs (VARs).

What do I need to do?

A manual process is temporarily in place to allow the acceptance of the required files. We will distribute a corrected D0286 containing the new SVAA Calendar in due course.
