## Default Data in Settlement following NHHDA issue affecting Settlement Date 4 April 2018

### What is happening?

Multiple Non Half Hourly Data Aggregators (NHHDA) have not submitted data for an Interim Information (II) Settlement Run. As a result, default data is being used by the Supplier Volume Allocation Agent (SVAA).

### How will I be impacted?

ELEXON is working with NHHDAs to ensure the missing data is submitted before the Settlement Final (SF) Run. The following Settlement Date is affected across all GSP Groups:

Run type	Settlement Date	Settlement Run type used for Default	Settlement Date used for Default
II	04/04/2018	II	03/04/2018

### Is there anything else I need to know?
